

1 UNITED STATES COURT OF APPEALS  
2 FOR THE SECOND CIRCUIT

3 August Term, 2014

4 (Argued: February 18, 2015 Decided: August 4, 2015)

5 Docket No. 14-3143

6  
7 Chantay Sewell,  
8 Plaintiff–Appellant,

9 v.

10 Phil Bernardin,  
11 Defendant–Appellee.  
12

13 Before: POOLER, SACK, and DRONEY, *Circuit Judges*.

14 The plaintiff, Chantay Sewell, appeals from an August 2, 2014, judgment of  
15 the United States District Court for the Eastern District of New York (Arthur D.  
16 Spatt, *Judge*) dismissing her claims under the Computer Fraud and Abuse Act, 18  
17 U.S.C. § 1030, and the Stored Communications Act, 18 U.S.C. § 2701, *et seq.*, for  
18 failure to initiate her action within the Acts' two-year limitations periods. Her  
19 claims arose in connection with the defendant, Phil Bernardin's, alleged acts of  
20 gaining unlawful access to Sewell's AOL e-mail and Facebook accounts. We  
21 conclude that the district court correctly applied the two-year statutes of  
22 limitations to Sewell's claims for unlawful access with respect to her e-mail

1 account, but that it erred in holding that her claims with respect to her Facebook  
2 account were time-barred.

3 We therefore AFFIRM in part, and VACATE and REMAND in part for  
4 further proceedings as indicated in this opinion.

5 HARVEY S. MARS, Law Office of Harvey  
6 S. Mars LLC, New York, NY, *for Plaintiff–*  
7 *Appellant.*

8 GARY T. CERTAIN, Law Office of Certain  
9 & Zilberg, PLLC, New York, NY, *for*  
10 *Defendant–Appellee.*

11 SACK, *Circuit Judge:*

12 In order to resolve this appeal, we address a matter of first impression in  
13 this Circuit: the operation of the statutes of limitations applicable under the civil  
14 enforcement provisions of the Computer Fraud and Abuse Act ("CFAA"), 18  
15 U.S.C. § 1030, and the Stored Communications Act ("SCA"), 18 U.S.C. § 2701, *et*  
16 *seq.* A plaintiff bringing an action under the CFAA's civil enforcement provision  
17 must do so "within 2 years of the date of the act complained of or the date of the  
18 discovery of the damage." 18 U.S.C. § 1030(g). The SCA provides that "[a] civil  
19 action under this section may not be commenced later than two years after the  
20 date upon which the claimant first discovered or had a reasonable opportunity to  
21 discover the violation." 18 U.S.C. § 2707(f).

1 involved in a "romantic relationship"<sup>1</sup> from in or about 2002 until 2011. Sewell  
2 maintained a private e-mail account with AOL and a private social media  
3 account with Facebook, including in 2011 and 2012. She did not knowingly share  
4 her account passwords with Bernardin or any other person and was the only  
5 authorized user of each account.

6 On or about August 1, 2011, Sewell discovered that her AOL password  
7 had been altered, and she was therefore unable to log into her AOL e-mail  
8 account. That same month, malicious statements about her sexual activities<sup>2</sup>  
9 were e-mailed to various family members and friends "via Sewell's own contacts  
10 list maintained privately within her email account." Compl. ¶ 19 (J.A. 6).

11 On February 24, 2012, Sewell found herself unable to log into her Facebook  
12 account. Then, on March 1, 2012, someone other than she posted a public  
13 message from her Facebook account containing malicious statements, again  
14 concerning Sewell's sex life.

---

<sup>1</sup> Sewell's characterization of her relationship with Bernardin is contained in an affidavit filed with the district court on February 14, 2014.

<sup>2</sup> In her complaint, Sewell describes an e-mail sent in or around August 2011 using her personal contacts list as containing "malicious statements toward Sewell regarding certain sexually transmitted diseases and sexual activities." Compl. ¶ 19 (J.A. 6).

1 Sewell alleges that Bernardin obtained her AOL and Facebook passwords  
2 without her permission while he was a guest in her home. Verizon Internet  
3 records confirmed that Bernardin's computer was used to gain access to the  
4 servers on which Sewell's accounts were stored. He then changed her AOL and  
5 Facebook passwords. Bernardin allegedly thereby obtained access to Sewell's  
6 electronic communications and other personal information and sent messages  
7 purporting to be from her.

8 On May 15, 2013, Sewell filed a separate suit against Bernardin's wife, Tara  
9 Bernardin, and "John Does #1-5," apparently believing that Tara Bernardin and  
10 others unknown to her had gained access to her Internet accounts. The  
11 complaint raised claims strikingly similar to those that she is pursuing in the  
12 instant action. Tara Bernardin settled her suit with Sewell on September 27, 2013,  
13 and the court accordingly entered judgment in Sewell's favor shortly thereafter.  
14 Several months later, on January 2, 2014, Sewell filed the instant action against  
15 Phil Bernardin, alleging violations of the SCA and CFAA. On August 2, 2014, the  
16 United States District Court for the Eastern District of New York (Arthur D.  
17 Spatt, *Judge*) granted Bernardin's motion to dismiss, holding that Sewell's claims

1 were time-barred under the CFAA's and SCA's applicable two-year statutes of  
2 limitations. This appeal followed.

### 3 DISCUSSION

4 We review the grant of a motion to dismiss under Federal Rule of Civil  
5 Procedure 12(b)(6)<sup>3</sup> *de novo*, "accepting as true factual allegations made in the  
6 complaint, and drawing all reasonable inferences in favor of the plaintiff[]." *Town of Babylon*, 699 F.3d at 227. "Dismissal under Fed. R. Civ. P. 12(b)(6) is  
7 appropriate when a defendant raises a statutory bar," such as lack of timeliness,  
8 "as an affirmative defense and it is clear from the face of the complaint, and  
9 matters of which the court may take judicial notice, that the plaintiff's claims are  
10 barred as a matter of law." *Staehr v. Hartford Fin. Servs. Grp.*, 547 F.3d 406, 425 (2d  
11 Cir. 2008) (internal quotation marks, alterations, and emphasis omitted).  
12

#### 13 I. The Applicable Statutes of Limitations

##### 14 A. *The Computer Fraud and Abuse Act*

---

<sup>3</sup> The defendant styled his motion before the district court as a motion pursuant to Federal Rule of Civil Procedure 12(c). The district court, however, treated the motion as a motion to dismiss pursuant to Rule 12(b)(6). The parties do not raise this as an issue on appeal and, in any event, "[t]he standard for granting a Rule 12(c) motion for judgment on the pleadings is identical to that of a Rule 12(b)(6) motion for failure to state a claim." *Patel v. Contemporary Classics of Beverly Hills*, 259 F.3d 123, 126 (2d Cir. 2001).

1           The CFAA criminalizes, *inter alia*, "intentionally access[ing] a computer  
2 without authorization or exceed[ing] authorized access, and thereby  
3 obtain[ing] . . . information from any protected computer," 18 U.S.C.  
4 § 1030(a)(2)(C), and "intentionally access[ing] a protected computer without  
5 authorization, and as a result of such conduct, caus[ing] damage and loss," *id.*  
6 § 1030(a)(5)(C).

7           The statute also provides a civil cause of action to "[a]ny person who  
8 suffers damage or loss by reason of a violation of this section." *Id.* § 1030(g). To  
9 be timely, such a civil suit must be filed "within 2 years of the date of the act  
10 complained of or the date of the discovery of the damage." *Id.* "Damage," in  
11 turn, is defined as "any impairment to the integrity or availability of data, a  
12 program, a system, or information." *Id.* § 1030(e)(8). The statute of limitations  
13 under the CFAA accordingly ran from the date that Sewell discovered that  
14 someone had impaired the integrity of each of her relevant Internet accounts.

15 *B. The Stored Communications Act*

16           Under the SCA, it is a crime to:

- 17           (1) intentionally access[] without authorization a facility through  
18           which an electronic communication service is provided; or  
19           (2) intentionally exceed[] an authorization to access that facility;

1 and thereby obtain[], alter[], or prevent[] authorized access to a wire  
2 or electronic communication while it is in electronic storage in such  
3 system . . . .

4 18 U.S.C. § 2701(a).

5 As with the CFAA, the SCA establishes a civil cause of action. "[A]ny . . .  
6 person aggrieved by any violation of this chapter in which the conduct  
7 constituting the violation is engaged in with a knowing or intentional state of  
8 mind" may file suit. *Id.* § 2707(a). A civil action under this section must be  
9 commenced no "later than two years after the date upon which the claimant first  
10 discovered or had a reasonable opportunity to discover the violation." *Id.*  
11 § 2707(f). In other words, the limitations period begins to run when the plaintiff  
12 discovers that, or has information that would motivate a reasonable person to  
13 investigate whether, someone has intentionally accessed the "facility through  
14 which an electronic communication service is provided" and thereby obtained  
15 unauthorized access to a stored electronic communication. *Id.* § 2701(a).

16 II. Sewell's Discovery of Damage and Unauthorized Access to Her AOL  
17 and Facebook Accounts

18  
19 The district court granted Bernardin's motion to dismiss Sewell's claims as  
20 untimely based on the court's conclusion that Sewell was "aware that the  
21 integrity of her computer had been compromised" as of August 1, 2011. *Sewell v.*

1 *Bernardin*, 50 F. Supp. 3d 204, 212 (E.D.N.Y. 2014). The court reasoned that  
2 Sewell's August 1, 2011, discovery – which related to the unauthorized use of her  
3 AOL account – provided her with a reasonable opportunity to discover the full  
4 scope of Bernardin's alleged illegal activity more than two years before she  
5 brought this suit on January 2, 2014. We agree with the district court as its  
6 decision related to Sewell's AOL account, but disagree with it as it related to her  
7 Facebook account.

8 Sewell discovered the "damage" to her AOL account for CFAA purposes  
9 on August 1, 2011, when she learned that she could not log into her AOL e-mail  
10 account. That she may not have known exactly what happened or why she  
11 could not log in is of no moment. The CFAA's statute of limitations began to run  
12 when Sewell learned that the integrity of her account had been impaired.

13 The SCA's statute of limitations began to run when Sewell "first . . . had a  
14 reasonable opportunity to discover, " 18 U.S.C. § 2707(f), that someone had  
15 "intentionally access[ed] [her AOL account] without authorization," *id.* § 2701(a).  
16 She had such an opportunity as soon as she discovered that she could not obtain  
17 access to that account because her password had been "altered" inasmuch as,

1 accepting her other allegations as true, further investigation would have led her  
2 to Bernardin.<sup>4</sup>

3 Sewell's CFAA and SCA claims with regard to her AOL account were first  
4 made on January 2, 2014, and were premised on damage and unauthorized  
5 access to her AOL account which she had or should have discovered some two  
6 years and five months earlier. The two-year statutes of limitations had therefore  
7 run.<sup>5</sup>

8 Sewell's Facebook-related claims, by contrast, appear to have accrued on or  
9 about February 24, 2012. Her complaint alleges that she "was the sole authorized  
10 user of" her Facebook account. Compl. ¶ 10 (J.A. 4). On or about "February 24,  
11 2012, [she] discovered that she could no longer log into or access her account  
12 with www.facebook.com because her password [had been] altered." Compl. ¶ 12  
13 (J.A. 5). There is nothing in the facts as alleged in the complaint from which to

---

<sup>4</sup> We express no view as to whether, in a different case under different facts, the mere inability to access an account without knowledge that one's password had been "altered" would provide a plaintiff with a reasonable opportunity to discover an SCA violation.

<sup>5</sup> Although the complaint alleges that Sewell's AOL account was improperly accessed on multiple occasions subsequent to August 1, 2011, Sewell does not raise any arguments on appeal with respect to these alleged violations. We thus take no position as to whether claims based on those subsequent violations would be timely under the CFAA or the SCA, or whether such claims would otherwise survive Bernardin's motion to dismiss.

1 infer that anyone gained unauthorized access to her Facebook account before  
2 then. Thus, taking these allegations as true, there would have been no damage,  
3 for CFAA purposes, or violation, for SCA purposes, for Sewell to discover with  
4 respect to her Facebook account before that date, which was less than two years  
5 before the suit was brought.

6         The fact that Sewell had discovered "damage" to her AOL account based  
7 on her inability to access AOL's computer servers at an earlier date does not lead  
8 to a different result. Contrary to the district court's remark, Sewell did not  
9 allegedly discover "that the integrity of her *computer* had been compromised" as  
10 of August 1, 2011. *Sewell*, 50 F. Supp. 3d at 212 (emphasis added). She  
11 discovered only that the integrity of her *AOL account* had been compromised as  
12 of that time. Her CFAA claim accordingly is premised on impairment to the  
13 integrity of a computer owned and operated by AOL, not of her own physical  
14 computer.<sup>6</sup> As a result, Sewell has two separate CFAA claims, one that accrued  
15 on August 1, 2011, when she found out that she could not access her AOL  
16 account, and one that accrued on February 24, 2012, when she found out that she  
17 could not access her Facebook account.

---

<sup>6</sup> Sewell asserts that the AOL and Facebook computers to which Bernardin allegedly gained unauthorized access were "protected" under the CFAA. Compl. ¶ 15 (J.A. 5). Bernardin does not argue otherwise.

1           Like her Facebook-related CFAA claim, Sewell's Facebook-related SCA  
2 claim is also timely. Under the SCA, a civil plaintiff must file her claim within  
3 two years of discovery or a reasonable opportunity to discover intentional and  
4 unauthorized access to an electronic communication facility. The district court  
5 concluded that Sewell "had a reasonable opportunity to discover the Defendant's  
6 illegal activity" vis-à-vis her Facebook account as of August 1, 2011. *Sewell*, 50 F.  
7 Supp. 3d at 213 (internal quotation marks and brackets omitted). But as we have  
8 noted, there is no allegation in the complaint that Sewell's Facebook account and  
9 the computer servers on which her information was stored were tampered with  
10 before February 24, 2012, when she alleges that she was unable to log into her  
11 Facebook account. She could not reasonably be expected to have discovered a  
12 violation that, under the facts as alleged in the complaint, had not yet occurred.

13           The district court's conclusion may rest on the assumption that a plaintiff  
14 is on notice of the possibility that all of her passwords for all of the Internet  
15 accounts she holds have been compromised because one password for one  
16 Internet account was compromised. We do not think that that is a reasonable  
17 inference from the facts alleged in the complaint. We take judicial notice of the  
18 fact that it is not uncommon for one person to hold several or many Internet

1 accounts, possibly with several or many different usernames and passwords, less  
2 than all of which may be compromised at any one time. At least on the facts as  
3 alleged by the plaintiff, it does not follow from the fact that the plaintiff  
4 discovered that one such account – AOL e-mail – had been compromised that she  
5 thereby had a reasonable opportunity to discover, or should be expected to have  
6 discovered, that another of her accounts – Facebook – might similarly have  
7 become compromised.

8 We pause to acknowledge that the statutes of limitations governing claims  
9 under the CFAA and SCA, as we understand them, may have troubling  
10 consequences in some situations. Even after a prospective plaintiff discovers that  
11 an account has been hacked, the investigation necessary to uncover the hacker's  
12 identity may be substantial. In many cases, we suspect that it might take more  
13 than two years. But it would appear that if a plaintiff cannot discover the  
14 hacker's identity within two years of the date she discovers the damage or  
15 violation, her claims under the CFAA and SCA will be untimely.

16 The plaintiff does have the option of initiating a lawsuit against a Jane or  
17 John Doe defendant, but she must still discover the hacker's identity within two  
18 years of discovery or a reasonable opportunity to discover the violation to avoid

1 dismissal. This is because we have concluded "that Rule 15(c) does not allow an  
2 amended complaint adding new defendants to relate back if the newly-added  
3 defendants were not named originally because the plaintiff did not know their  
4 identities." *Barrow v. Wethersfield Police Dep't*, 66 F.3d 466, 470 (2d Cir. 1995).<sup>7</sup>

## 5 CONCLUSION

6 For the foregoing reasons, the judgment of the district court is AFFIRMED  
7 in part and VACATED and REMANDED in part for further proceedings.

---

<sup>7</sup> Sewell also purports to appeal from the district court's denial of her request for leave to amend, but the district court did not explicitly deny or otherwise rule on this request. We can imagine no plausible amendment that would render her AOL claims timely but nevertheless instruct the district court to consider and expressly rule on Sewell's motion, should she choose to revive it, on remand. See *Jin v. Metro. Life Ins. Co.*, 310 F.3d 84, 101 (2d Cir. 2002) ("Outright refusal to grant the leave [to amend] without any justifying reason for the denial is an abuse of discretion.").
